

Green Energy Engineering, Inc.

"Pay less for Energy and save the Earth"

Green Energy Engineering, Inc. Order Form

These materials were produced by **Eric Coffin**, President of **Green Energy Engineering, Inc.** who is the Florida Board of Professional Engineers approved trainer (provider #0003544). These four (4) hour area of practice classes are applicable for all engineering disciplines (chemical, electrical, civil, mechanical, industrial, and structural, etc) because these are core engineering classes in many universities.

Name as you want it printed on the Certificate (please print clearly)

Name _____

PE in State of _____ PE number _____

Address _____

City _____ State _____ Zip Code _____

Phone _____ Email _____

Principles of Engineering Economy (4 PDH):

- DVD and paper test – price \$50.00
- Power Point Notes - price \$20.00
- Worked Problems - price \$49.00
- CD containing 9 interactive Excel Spreadsheets - price \$96.00
- "Become that Hero" package containing the DVD and paper test, copies of 480 Power Point Notes, 34 completed Worked Problems, and the interactive Excel CD (\$215.00 value) - price \$144.00
- College textbook – price \$135.00

Incremental Investment and Incremental Return (4PDH):

- DVD and paper test - price \$79.00
- Power Point Notes - price \$29.00
- Worked Problems - price \$49.00

Cost-Optimized Pumping in the Phosphate Industry:

- DVD of presentation - price \$20.00
- White Paper - price \$20.00
- Power Point slides - price \$15.00

Live Seminars (check website for available classes, date, time, and prices):

Date selected: _____ **Title:** _____

Price: _____

Enclosed is my Check # _____ In the amount of \$ _____
